Kelsey,  
Will you add this to the May Meeting?

Mayor and Council,

I'm respectfully asking you again to swiftly address this issue. I know there have been other pressing matters for you with Covid-19, but I first asked for assistance back in 2019 with this noise issue. A street performer sets up on the sidewalk with a speaker, microphone stand, donation bucket, and luggage that he brings the equipment in with, all taking up the public sidewalk. Attached is a video of what I experience for hours at a time while working. I do not have the right to quiet enjoyment of my property. He has his speaker turned up to maximum volume blasting straight into my business. I have customers complaining. Many leave without purchasing. I ask you to think what you would want done if you had this noise outside your

home or business every week. When you can hear him performing from 100 yards in each direction, this would appear to me to be an issue.

Thank you,
