BUDGET MESSAGE

Incorporated in 1887 and located in the northeast corner of Georgia, the City of Blue Ridge is the county seat of Fannin County. The City consists of 2.2 square miles and has a population of 1,290, according to the 2010 census. Named for the southern reach of the Appalachian Mountain Range that stretches into the area, the City of Blue Ridge boasts beautiful mountain views. With key water features, such as Lake Blue Ridge and the Toccoa River, as well as being surrounded by the Blue Ridge Mountains and near the southern tip of the Appalachian Trail, the area draws tourists and outdoorsmen from all over.

The downtown area is populated with unique shops and antique stores, art galleries and eateries. Tracks for the Blue Ridge Scenic Railway bisect the downtown, with the Scenic Railway itself operating out of the town's historic 100 year old depot. The downtown area also serves as host for multiple festivals and the City is home to one of the few drive-ins in North Georgia, the Swan Drive-In Theatre.

The City of Blue Ridge operates under the direction of the City Council, which consists of the Mayor and five council members, all elected at large. Each council member serves as Commissioner over one of the following departments: street, police, water and sewer, office or park. The Council represents the interests of the citizens by adopting public policies and determining the scope of services and tax levels. The Council also approves ordinances, new projects and programs, and adopts the annual budget.

REVIEW OF 2013

The past year has brought another year of growth with new the opening of new shops and restaurants and festivals and activities for residents and tourists. Some highlights from the year include the return of events in the downtown park such as Spring and Fall Arts in the Park, Blues and BBQ Music Festival, and the Labor Day BBQ to name a few.

Resources from hotel/motel tax collections again increased this year indicating Blue Ridge is a true tourist destination. Collections were used for advertising and promoting the area and to host Light Up Blue Ridge and Blue Ridge on Ice. Public restrooms and a concession stand were completed at the Farmer's Market expanding the usefulness and attraction of this historic site.

Streetscape Phase III is in progress to renovate the historic downtown depot with plans to complete in 2014. Streetscape projects are largely funded by the Georgia Department of Transportation.

The City made improvements on the playground in the downtown park by redoing the surface in pebbles. A grant from the Georgia Department of Natural Resources was entered into to design and construct a multi-use unpaved trail near Mineral Springs Creek, along with trailhead parking, benches and a gazebo.

During 2013, The City took over all building permits within the City limits from Fannin County. Current City staff is handling building permits while electrical permitting is contracted with a third-party provider. The City hopes to more accurately monitor building within the City limits while generating this revenue directly for the City.

The water and sewer department services approximately 2,500 customers and will soon complete the sewer line extension on Summit Street financed by a Community Development Block Grant. The aging infrastructure will be a primary focus in the future as the City continues to pursue leak detection to lower the rate of lost water. Customers can also pay their utility bills and traffic fines online with new services offered on the City's website.

2014 BUDGET ANALYSIS

The 2014 Budget provides adequate resources to deliver high-quality services to our constituents and reflects the fiscal conservatism of the City Council. The City is striving to lower taxes while investing in infrastructure and establishing some reserves.

The following displays the City's budgeted general fund revenue sources for 2014.

General Fund Revenue

Ad valorem taxes consist of all current and prior year tax collections levied for property taxes. The Mayor and Council normally set the millage rate for City taxes at the end of the preceding year before the budget is adopted. The millage rate was lowered from 6.32 to 5.772 for 2013 property taxes. Budgeted revenue of \$370,000 is approximately 90% of the total levy with various collection percentages used for prior

years' outstanding balances. The local option sales tax (LOST) rate was renegotiated during 2013 and the share the City will receive from all sales taxes collected within the City limits for the next ten years increased from 11.1% to 14%. This increase along with the opening of Wal-Mart in 2014 places LOST projections about 45% higher than last years budget at \$620,000. This has become the City's largest single source of revenue followed by property tax.

Beverage taxes budgeted at \$225,000 completes the majority of the City’s tax collections. Other taxes also include franchise taxes which are currently collected quarterly from two phone companies and a cable company and semi-annually from an electric company for lines and systems within the City limits. The City has budgeted conservatively, but hopes to see a rise in franchise tax revenue due to an agreement that is currently in negotiations with Atlanta Gas Light on newly installed lines within City limits. Business occupation taxes, also known as business licenses, the insurance premium tax, and financial institution taxes make up the majority of the remaining other taxes category.

Charges for services includes sanitation admin fees for providers that operate within the City limits, pool admissions and concession collections and an allocation for interfund services provided to the water and sewer fund. Finance, billing and customer service are budgeted in the general fund with a percentage for each function allocated to the water and sewer fund and that reimbursement is shown as revenue.

Sanitation fees are not budgeted in charges for services in 2014 because the previous vendor sold the business and all customers are now

billed directly from the provider. Since sanitation fees are no longer on our water customers’ bills, vendors providing sanitation services within the City limits pay an administration fee that is included in the charges for services category.

Miscellaneous revenue includes rental income from City properties of \$61,000 for the Blue Ridge Marina, Swan Drive-In, and depot leased by Blue Ridge Scenic Railway. A new police car will be financed by a lease that is included in other financing sources.

Following is a chart showing changes in major revenue sources from 2012 actual and the 2013 amended budget compared to 2014 budget for the general fund. The decrease in other taxes is due to a reduction in beverage taxes based on actual collections in 2013 and extra franchise payments received during 2013 because of a rate correction. Licenses and permits are budgeted to increase since the City has taken over building and electrical permitting. Intergovernmental revenue also includes a \$100,000 grant for Mineral Springs as previously mentioned. Miscellaneous revenue spiked in 2012 due to over \$260,000 in insurance reimbursement received for damage to the drive-in screen, which is a property owned by the City.

General Fund Expenditures

Expenditures are displayed on the budget summary by department, which is the legal level of control for the City of Blue Ridge. This means it would require a budget amendment by the City council to adjust the budget expenditures for a department. Several new departments were created for the 2013 budget to comply with the Uniform Chart of Accounts established by the Georgia Department of Community Affairs. The wages and benefits of

several City departments were also more detailed and included in several departments where they were previously summarized to facilitate better management of City resources. The following chart summarizes the expenditures for the different functions of the general fund.

Public safety expenditures of 41% include the police department, municipal court and fire fighting. The police department is a very important City function and comprises 34% of general fund expenditures. The increase in the police department is due to the addition of some part-time officers for special events and festivals and a 5% pay increase. The municipal court department was moved out of the police department in 2013 and created to account for expenditures related to the City's monthly municipal court meeting. The City maintains a fire truck and pays Fannin County to man it for fire calls made within the City limits.

General government expenditures of 25% include mayor and council, elections, general administration, and tax administration and licensing. Insurance in the mayor and council department was increased to allow for insurance for newly elected officials should they choose to accept it. The increase in general administration is due to employees from the water and sewer fund being relocated and a percentage of their wages charged back to the utility fund in order to more accurately allocate the expenditure.

The highways and streets budget comprises only 16% of the general fund budget because all resurfacing and sidewalk maintenance and capital outlay purchases for the street department are budgeted in the SPLOST fund. The City receives 6.3% of SPLOST collections in the County for maintenance, repair, and construction of roads, streets, bridges and sidewalks. The City maintains approximately 33 miles of City streets with general fund and SPLOST revenues. The increase in the street department is due to increased wages and benefits for an additional employee and a 5% cost of living raise.

The parks and recreation function includes the management of the City pool and ball fields along with the downtown City park and makes up 15% of the budget. It also includes expenditures for a park grant for the development of a trail at Mineral Springs. The function of economic development that comprises 3% of the City's budget includes the office of the City's planning and zoning administrator as well as allocations for the management and upkeep of City property under rental agreements and the general downtown area. The downtown development department was created to account for expenditures to maintain the bathrooms and sidewalk areas around the depot and downtown area. In the prior year, the department included wages for an employee dedicated to grants and downtown development. This position was eliminated during 2014 as this employee was moved to another department.

Water and Sewer Fund

Water and sewer rates show an increase of \$111,560 projected to be received because of a change to no minimum being allowed in the base rate. Customers will pay a base rate based on the type and location of service plus each account will be charged a rate per gallons starting with the first gallon of water that is used. Intergovernmental revenue will be received from the Community Development Block Grant (CDBG) that is anticipated to be completed during the first part of 2014. The wages and benefits of several departments were summarized in the administration departments for water and sewer during 2012, but were allocated to the plants and maintenance during 2013. Finance, billing and customer service were moved from the

administration departments in the water and sewer fund to administration in the general fund for 2014. The services are allocated by charging a percentage to the water and sewer fund to more accurately allocate these expenses. These changes account for the large decreases in the sanitary and water administration departments and increases in other departments the past two years.

Expense/expenditures of operating funds by function

All City expenditures/expenses for operating funds are heavily weighted towards personnel wages and benefits as shown in the following chart that includes all costs for the operating funds, which include the general fund and water and sewer fund. There is an increase in wages and benefits as a result of a cost of living raise for all employees of 5% for 2014.

Capital outlay for 2012 consisted mainly of the erection of a new screen at the drive-in that was financed by insurance reimbursement as previously mentioned. Capital outlay in 2013 consisted of over \$400,000 financed by a CDBG grant for sewer improvements in the water/sewer fund. Capital outlay for 2014 includes an upgrade of the City’s accounting software, a police car lease and the Mineral Springs park project. The City closed on two GEFA loans during 2012 which accounts for the increase in debt service. The City is continuing work on several projects, including an upgrade of the water plant, which will be financed by USDA and will include payoff of the GEFA loans and an interim bond for which the City is currently paying interest. The other cost categories are fairly consistent for the years presented below.

Other Funds

Hotel/motel taxes were increased to 5% from 3% during 2011. According to state law, the 2% increase must be spent only to support a facility for tourism and trade shows or through a contract to promote tourism. The City Council

has chosen to support the City owned Farmer’s Market facility to promote the sell of local produce and homemade goods and host special events. General maintenance and utilities, along with improvements for lighting and landscaping are included in the budgeted amount of \$40,000 for 2014. The unrestricted

amount of hotel/motel taxes will be used to promote tourism through various events downtown.

The City's capital project funds, SPLOST and Streetscape, do not require annual budgets according to Georgia law, but rather project-length budgets. However, an annual budget for the SPLOST fund is included to facilitate the expenditure of funds for maintenance of the City's roads and sidewalks, the referendum approved project for SPLOST funds. The City plans to purchase two tractors for mowing and road maintenance with SPLOST funds, along with funding resurfacing and other road and sidewalk maintenance.

The Confiscated Assets Fund accounts for collections from confiscated assets, including cash and the sale of property confiscated during police investigations of drug related violations. These revenues are restricted to public safety expenditures for drug prevention and education and are therefore, separately accounted for in this fund.

Actions by the Mayor and Council of the City of Blue Ridge regarding the 2014 budget have a major impact on public services and capital projects that are an integral part of the economic development and quality of life in Blue Ridge. The challenge is balancing the service needs of citizens against limited financial resources. This budget document represents the culmination of that work as departments have scrutinized expenditures/expenses while revenues have been budgeted conservatively. City departments will be prepared to reduce expenditures should revenues not meet projected levels.

BUDGETARY POLICIES

The budget process provides the primary mechanism by which key decisions are made regarding the levels and types of services to be provided within estimated available resources. Budget policy guides this process and directs the City's financial health and stability.

At a minimum, the City shall adopt annual balanced budgets for the general fund, each special revenue fund, and each debt service fund in accordance with the Official Code of Georgia, O.C.G.A. 36-81-3. Georgia law also requires a project-length balanced budget for each capital projects fund.

The annual proposed budgeted should be submitted to the governing authority while being held at City Hall for public review/inspection in accordance with O.C.G.A. 36-81-3. A public hearing will be conducted after proper advertisement prior to the City Council adopting and approving the annual budget document (O.C.G.A. 36-81-5 and 36-81-6).

BUDGET OBJECTIVE BY TYPE OF FUND

The following budget objectives are established for the different funds the City uses:

General Fund

The annual budget for the General Fund shall provide for the general government operations of the City and maintain working capital necessary for financial planning and managing the resources of the City.

Special Revenue Fund(s)

The City adopts annual budget for each special revenue fund that demonstrates any legally

restricted revenue sources are used consistent with the applicable laws and/or regulations (i.e. Hotel/Motel Tax Fund).

Capital Project Fund(s)

The City adopts project budgets for each of its capital project funds. These adopted appropriations do not lapse at the end of a fiscal year; rather they remain in effect until project completion or re-appropriation by City Council.

Debt Service Fund(s)

The City adopts annual budgets for any debt service fund. Any remaining fund balances from prior years plus current year's projected revenues shall be sufficient to meet all annual debt service requirements.

Proprietary Funds(s)

Although generally accepted accounting principals (GAAP) and Georgia statutes do not require the City to adopt budgets for enterprise funds, the City does adopt budget a for enterprise funds in order to monitor revenues and control expenses. The City uses a business approach when budgeting enterprise funds. Enterprise funds shall be self-supporting whenever possible and subsidized losses will be minimized when break-even is not possible.

Additionally, the City classifies funds as either operating funds or non-operating funds. Operating funds are those funds that include appropriations for the payment of salary and benefits and whose maintenance and operating appropriations are necessary to continue the daily operations of the City. The General Fund will always be an operating fund. Non-operating funds are those funds that do not include appropriations for the payment of

salary and benefits and whose maintenance and operating appropriations are not critical to the daily operations of the City.

BASIS OF BUDGETING

Neither GAAP nor Georgia statutes address a required basis of budgeting; however, the City shall adopt budgets in conformity with GAAP for all budgeted funds. All governmental funds shall use the modified accrual basis of accounting. Proprietary funds shall use the accrual basis of accounting with the exception that debt principal payments and capital outlay are budgeted and depreciation is not for budgeting cash flow purposes.

BALANCED BUDGET

A balanced budget is defined as one in which total anticipated revenues plus that portion of fund balance in excess of authorized reserves that is designated as a budget-funding source shall equal total estimated expenditures for each fund.

The City shall avoid budgetary procedures that balance current expenditures through the obligation of future resources. The City shall avoid short-term borrowing to meet operating budget requirements, except as authorized by the Mayor and Council.

Revenues include those which are due for the current year. Expenditures appropriated by the annual budget include items for which disbursements are made or incurred during the fiscal year through the payables process.

All operating budget appropriations shall lapse at the end of the fiscal year. Purchases encumbered in the current year, but not received until the following year, must be

charged against a department's subsequent year appropriation.

BUDGET ADOPTION AND CONTROL

All budgets shall be adopted at the legal level of budgetary control, which is the department level within each individual fund. The City budget is adopted annually by resolution of the Mayor and Council before the beginning of the new fiscal year. In accordance with O.C.G.A. 36-80-21, as soon as the City has adopted a final budget for an upcoming fiscal year, a copy of the budget shall be electronically transmitted in a PDF file to the Vinson Institute and posted on the website accessible to the public. The PDF should be transmitted no later than 30 calendar days following the adoption of the budget resolution.

The budget shall be developed based upon "line item" expenditures within each department. This type of budget focuses on categories of expenditures such as personal services, purchased services, supplies, capital outlay, etc. within each department. At a minimum, each department's appropriation in each fund shall be detailed within the budget document (O.C.G.A. 36-81-3 and 36-81-5). Departments are based on function and activity classifications in the Georgia Department of Community Affairs chart of accounts.

A system of budgetary controls shall be maintained to assure adherence to the budget. Timely quarterly reports shall be prepared comparing actual revenues and expenditures/expenses with budgeted amounts to be distributed to the Mayor and Council.

AUTHORIZATION OF BUDGET ADJUSTMENTS AND AMENDMENTS

The budget is a dynamic rather than static plan, which requires adjustments and formal budget amendments as circumstances change. The Mayor and City Council must approve all amendments in total departmental appropriations by resolution.

The budget officer can make reallocation of budgeted amounts within expenditures/expenses of a department or revenues of a department. The City Administrator shall be the constituted budget officer for the City. Adjustments from appropriations that have been restricted, committed, or assigned for a designated purpose shall not be transferred until a formal de-obligation occurs.

Budget amendments or reallocations are recorded in the general ledger upon approval by the Mayor and Council or City Administrator.

MAINTENANCE AND REPLACEMENT OF CAPITAL EQUIPMENT

The budget for capital expense shall be incorporated with the current year operating budgets for each fund, and shall be funded by current operating revenue to the extent possible. An itemized listing of capital expense, equipment and projects shall be included in the budget document.

BUDGET STABILIZATION & FUND BALANCE POLICY

The City shall strive to establish a fund balance reserve in all operating funds for working capital. The purpose of working capital is to cover the cost of expenditures caused by unforeseen emergencies, cover shortfalls

caused by revenue declines, and to eliminate any short-term borrowing for cash flow purposes. This reserve shall accumulate and then be maintained at an amount that represents no less than three (3) months of operating and debt expenditures (approximately 25% of budgeted expenditures.) Non-operating funds do not need a reserve for working capital.

If necessary, the City may use unrestricted fund balance as a funding source for that fund's budget in any given year. The amount of unrestricted fund balance shall be estimated conservatively, taking into consideration future year needs. The minimum requirement for the reserve for working capital, equal to three (3) months of operating and debt expenditures, must first be met before utilizing the excess fund balance as a funding source for the budget. The utilization of fund balance shall be deemed a use of one-time revenues for budgeting purposes.

CONTINGENCY LINE-ITEM

The City shall establish an appropriated contingency of one percent (1%) of the total annual expenditure appropriation in all operating funds in order to accommodate unexpected operational changes, legislative impacts, or other economic events affecting the City's operations which could not have been reasonably anticipated at the time the budget was prepared. Non-operating funds shall not require a contingency reserve appropriation.

This contingency reserve appropriation will be a separate line-item within the budget. This amount shall be subject to annual appropriation. The approval of the Mayor and Council is required before this appropriation can be expended. If approved, the Finance

Director will transfer the appropriation from the contingency line-item to the applicable line item(s) within the applicable department's budget.

CONTRIBUTIONS

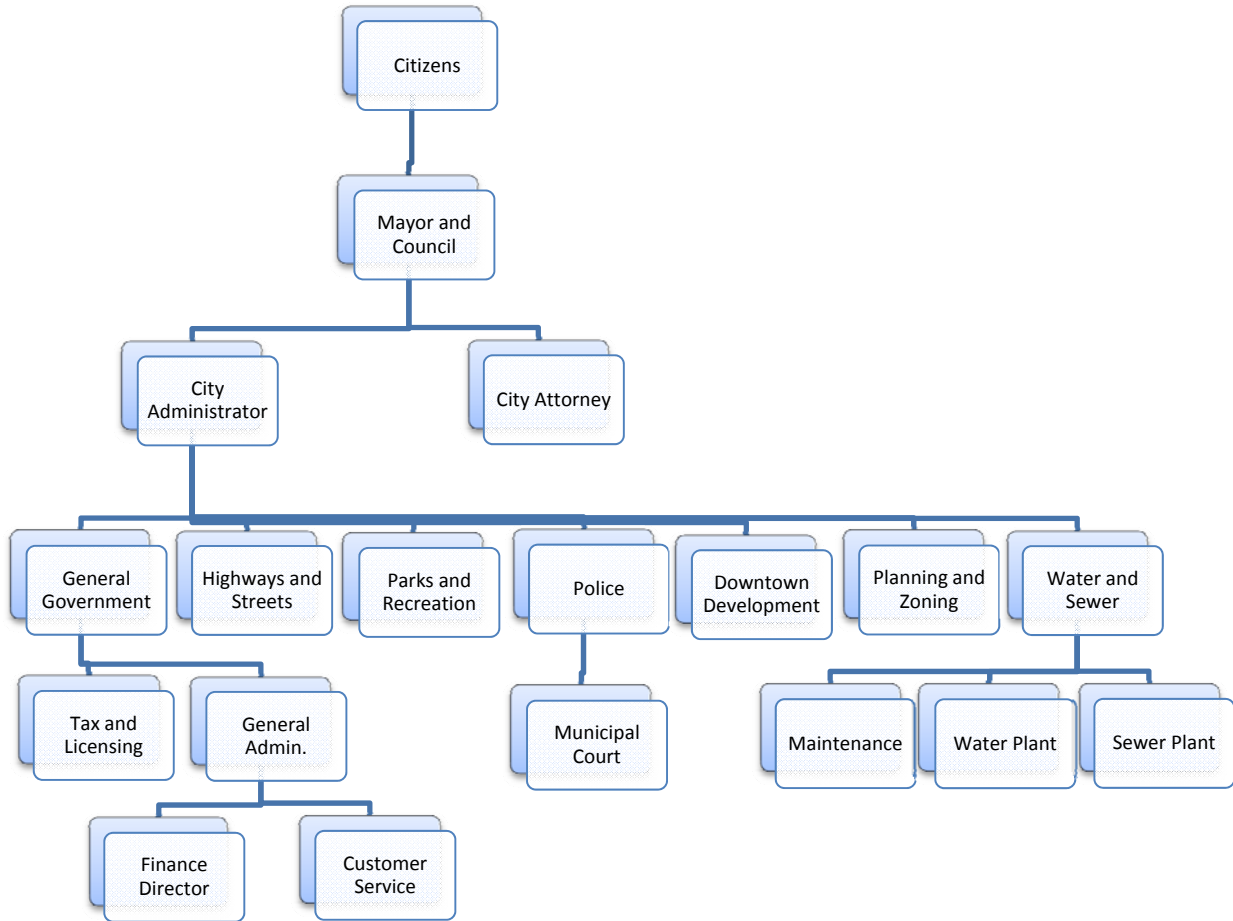

Unless authorized by City Council, outside contributions to programs operated by City departments shall be subject to the City's accounting and budgetary policies. The City welcomes both unrestricted and restricted contributions compatible with the City's programs and objectives. Any material contribution shall be appropriated by City Council prior to expenditure. Material contributions shall be defined as one-time contributions exceeding one percent (1%) of the department's annual maintenance and operating expenditure appropriation or \$25,000, whichever is less.

ONE-TIME REVENUE SOURCES

Non-recurring revenues shall be utilized within the appropriate fund for items relating to non-recurring expenses. The purpose of limiting these funding sources is to eliminate the fluctuations in funding operations with non-sustainable resources. One-time revenues shall be distinguished during the budget process so that a match can be made with non-recurring expenditures.

Adopted December 11, 2012
