BUDGET MESSAGE

Incorporated in 1887 and located in the northeast corner of Georgia, the City of Blue Ridge is the county seat of Fannin County. The City consists of 2.2 square miles and has a population of 1,290, according to the 2010 census. Named for the southern reach of the Appalachian Mountain Range that stretches into the area, the City of Blue Ridge boasts beautiful mountain views. With key water features, such as Lake Blue Ridge and the Toccoa River, as well as being surrounded by the Blue Ridge Mountains and near the southern tip of the Appalachian Trail; the area draws tourists and outdoorsmen from all over.

The downtown area is populated with unique shops and antique stores, art galleries and eateries. Tracks for the Blue Ridge Scenic Railway bisect the downtown, with the Scenic Railway itself operating out of the town's historic 100 year old depot. The downtown area also serves as host for multiple festivals and the City is home to one of the few drive-ins in North Georgia, the Swan Drive-In Theatre.

The City of Blue Ridge operates under the direction of the City Council, which consists of the Mayor and five council members, all elected at large. The Council represents the interests of the citizens by adopting public policies and determining the scope of services and tax levels. The Council also approves ordinances, new projects and programs, and adopts the annual budget.

REVIEW OF 2014

The past year has brought growth with the opening of new shops and restaurants and festivals and activities for residents and tourists.

Some highlights from the year include the return of events in the downtown park such as Spring and Fall Arts in the Park, Blues and BBQ Music Festival, and the Labor Day BBQ to name a few.

Resources from hotel/motel tax collections again increased this year indicating Blue Ridge is a true tourist destination. Collections were used for advertising and promoting the area with collections paid out to the Fannin County Chamber and used at the direction of the Council to support multiple downtown events and activities. Collections were also used to maintain the Blue Ridge Farmer's Market as a tourist attraction and historic site, hosting multiple events and putting the new restrooms and concession stand completed in 2013 to use.

Streetscape Phase III is near completion to renovate the historic downtown depot. Streetscape projects are largely funded by the Georgia Department of Transportation.

The City is making improvements at the City Park renovating the restrooms at the swimming pool. A grant from the Georgia Department of Natural Resources is also near completion to construct a multi-use unpaved trail near Mineral Springs Creek, along with trailhead parking and picnic tables.

During 2013, The City took over all building permits within the City limits from Fannin County. Current City staff is handling building permits while electrical permitting is contracted with a third-party provider. The City hopes to more accurately monitor building within the City limits while generating this revenue directly for the City.

The water and sewer department services approximately 2,500 customers and completed

the sewer line extension on Summit Street financed by a Community Development Block Grant. Work began on renovating the City's water plant and installing new water lines in the Mineral Bluff area along with a new water tank at Sunset Drive. These projects are financed by bonds through the United States Department of Agriculture.

2015 BUDGET ANALYSIS

The 2015 budget provides adequate resources to deliver high-quality services to our constituents and reflects the fiscal conservatism of the City Council. The City is striving to keep taxes low while investing in infrastructure and establishing some reserves.

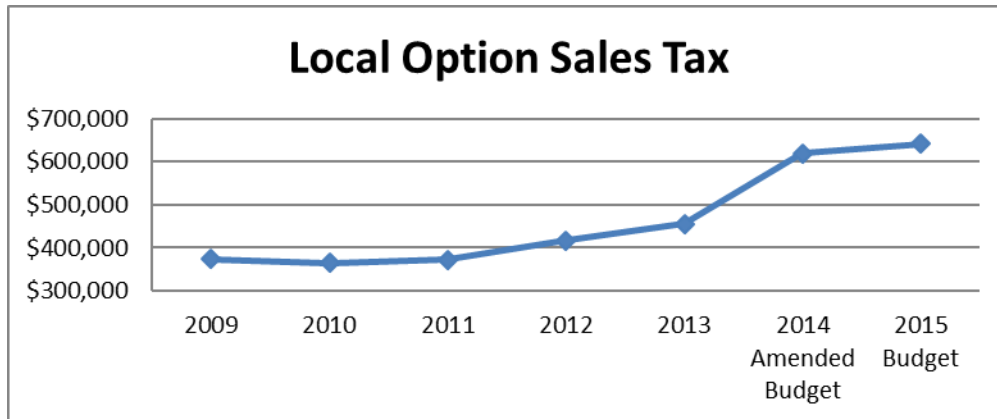

The following displays the City's budgeted general fund revenue sources for 2015.

General Fund Revenue

Ad valorem taxes consist of all current and prior year tax collections levied for property taxes. The Mayor and Council normally set the millage rate for City taxes at the end of the preceding year before the budget is adopted. The millage rate was lowered from 6.32 to 5.772 for 2013 property taxes. Budgeted revenue of \$370,000 is conservatively approximately 75% of the total levy with various collection percentages used for prior years' outstanding balances. The local option sales tax (LOST) rate was renegotiated during 2013 and the share the City will receive

from all sales taxes collected within the City limits for the next ten years increased from 11.1% to 14%. This increase along with the opening of Wal-Mart in 2014 places LOST projections about 40% higher than the funds collected in 2013. The budget for 2015 is \$642,000. This has become the City's largest single source of revenue followed by property tax.

Beverage and liquor pouring taxes budgeted at \$270,000 completes the majority of the City's tax collections and is classified as other taxes. This category also includes franchise taxes which are collected from two phone companies, a cable company and an electric company for lines and systems within the City limits. The City has budgeted conservatively, but hopes to see a rise in future franchise tax revenue due to an agreement with Atlanta Gas Light on newly installed lines within City limits. Franchise fees are also collected from vendors providing sanitation services within the City limits. Business occupation taxes, also known as business licenses, the insurance premium tax, and financial institution taxes make up the majority of the remaining other taxes category.

Charges for services includes pool admissions and concession collections, an allocation for interfund services provided to the water and sewer fund and other miscellaneous charges to customers. Finance, billing customer service and human resources are budgeted in the general fund with a percentage for each function allocated to the water and sewer fund and that reimbursement is shown as revenue.

Sanitation fees are not budgeted in charges for services in 2014 or 2015 because the previous vendor sold the business and all customers are

now billed directly from the provider. Sanitation vendors pay a franchise fee that is included in the other taxes category.

Miscellaneous revenue includes rental income from City properties of \$65,000 for the Blue Ridge Marina, Swan Drive-In, and depot leased by Blue Ridge Scenic Railway.

Following is a chart showing changes in major revenue sources from 2013 actual and the 2014 amended budget compared to 2015 budget.

Sales taxes have increased since the City now receives 14% of county collections and the opening of Wal-Mart. Budgeted revenue for other taxes for 2014 is lower due to a reduction in beverage taxes based on actual collections in 2013 and extra franchise payments received during 2013 because of a rate correction. Other taxes are back up for 2014 because of an increased budget for liquor pouring taxes and auto ad valorem taxes based on the history of actual collections for the past two years. The auto tag taxes have increased with the new Title Ad Valorem Tax which is only paid once at the time of purchase. Charges for services have decreased from 2013 since the City no longer charges for garbage collection on the City's water bills, as previously mentioned. Intergovernmental revenue for 2014 included a \$100,000 grant for Mineral Springs.

General Fund Expenditures

Expenditures are displayed on the budget summary by department, which is the legal level of control for the City of Blue Ridge. This means it would require a budget amendment by the City council to adjust the budget expenditures for a department

Public safety expenditures of 47% include the police department, municipal court and fire fighting. The police department is a very important City function and comprises 39% of general fund expenditures. The increase in the police department is due to the addition of some part-time officers for special events and festivals and a 2% pay increase along with a 20% increase in health insurance. The municipal court department was moved out of the police department in 2013 and created to account for expenditures related to the City's monthly municipal court meeting. The City maintains a fire truck and pays Fannin County to

operate the fire truck and respond to fire calls made within the City limits.

General government expenditures of 24% include mayor and council, elections, general administration, tax administration and licensing. There was no real overall change in general government expenditures since the 20% increase in insurance was offset because one employee that had been allocated to the water fund through interfund allocations was moved to that fund since it was determined all of her time was spent in administering water and sewer activities. These interfund allocations are used to charge the wages and benefits of finance, human resources and customer service back to the utility fund in order to more accurately allocate the expenditure.

The highways and streets budget comprises only 17% of the general fund budget because all resurfacing, sidewalk maintenance and capital outlay purchases for the street department are

budgeted in the SPLOST fund. The City receives 6.3% of SPLOST collections in the County for maintenance, repair, and construction of roads, streets, bridges and sidewalks. The City maintains approximately 33 miles of City streets with general fund and SPLOST revenues. There was only 1% increase in the street department for 2015.

The parks and recreation function includes the management of the City pool and ball fields along with the downtown City park and makes up 10% of the budget. The function of economic development that comprises 2% of

the City’s budget includes the office of the City’s planning and zoning administrator as well as allocations for the management and upkeep of City property under rental agreements and the general downtown area. The downtown development department was created to account for expenditures to maintain the bathrooms and sidewalk areas around the depot and downtown area.

The following chart summarizes the expenditures for the different functions of the general fund.

Water and Sewer Fund

Water and sewer rates show an increase of \$160,000 based on current monthly billings projected for next year. Beginning in 2014, customers pay a base rate based on the type and location of service plus each account will be charged a rate per gallons starting with the first gallon of water that is used. Intergovernmental revenue was received from the Community Development Block Grant (CDBG) completed during 2014.

The City closed on the 2014 A & B Bonds and paid off loans from GEFA and an interim bond from a local bank. Those payments of approximately \$133,000 were replaced with the first interest only payment on the bonds of \$421,000 during 2015. This payment is budgeted in water administration, accounting for the large increase in that department.

Finance, human resources and customer service were moved from the administration departments in the water and sewer fund to administration in the general fund in 2014. The

services are allocated by charging a percentage to the water and sewer fund to more accurately allocate these expenses. A new department was added for water loss prevention to track costs for detecting water leaks and reducing the City's large unaccounted for water losses. The department budget of about \$100,000 allows for wages of employees to detect leaks and master meters to place throughout the system to monitor water usage. These efforts are expected to increase the City's revenue by replacing defective meters and to decrease water treatment costs by reducing water that is lost due to leaks.

Expenditures/expenses of operating funds by function

All City expenditures/expenses for operating funds are heavily weighted towards personnel wages and benefits as shown in the following chart that includes all costs for the operating funds, which are the general fund and water and sewer fund. There is an increase in wages and benefits as a result of a 2% cost of living

raise for all employees and a 20% increase in health insurance for 2015.

The actual amount for purchased services was higher in 2013 due to unbudgeted project costs for the USDA water projects that were funded by a bond closing in 2014. Approximately \$200,000 was budgeted for this project for legal and engineering in 2014, while nothing was budgeted in 2015 since all costs will be funded by the bonds closed during the prior year.

Capital outlay in 2013 consisted of a police car lease. Capital outlay for 2014 included an upgrade of the City's accounting software, a police car lease and the Mineral Springs park project. Capital outlay budgeted for 2015 includes only master meters for the water fund. The Council plans to assess capital needs as they arise since there were no immediate needs deemed necessary in the general fund.

Debt service is has increased for 2015 due to the interest only payment for the 2014 USDA bonds closed in 2014 for the water fund.

Other Funds

Hotel/motel taxes were increased to 5% from 3% during 2011. According to state law, the 2% increase must be spent only to support a facility for tourism and trade shows or through a contract to promote tourism. The City Council has chosen to support the City owned Farmer's Market facility to promote the sell of local produce and homemade goods and host special events. General maintenance and utilities are included in the budgeted amount of \$21,000 for 2015. The City also entered into a contract with the Fannin County Chamber of Commerce to allow for \$25,000 of the restricted portion to be contributed to Chamber and distributed to various events or organizations at the direction of the Council. The Council plans to use the unrestricted amount of hotel/motel taxes for paving and street maintenance downtown or other City projects as deemed necessary.

The City's capital project funds, SPLOST and Streetscape, do not require annual budgets according to Georgia law, but rather project-length budgets. However, an annual budget for the SPLOST fund is included to facilitate the expenditure of funds for maintenance of the City's roads and sidewalks, the referendum approved project for SPLOST funds. The City plans to resurface East Main Street during 2015 with SPLOST funds and two years of grants from the Department of Transportation for resurfacing along with other road and sidewalk maintenance.

The Confiscated Assets Fund accounts for collections from confiscated assets, including cash and the sale of property confiscated during police investigations of drug related violations. These revenues are restricted to public safety expenditures for drug prevention and education

and are therefore, separately accounted for in this fund.

Closing

Actions by the Mayor and Council of the City of Blue Ridge regarding the 2015 budget have a major impact on public services and capital projects that are an integral part of the economic development and quality of life in Blue Ridge. The challenge is balancing the service needs of citizens against limited financial resources. This budget document represents the result of that work as departments have scrutinized expenditures/ expenses while revenues have been budgeted conservatively. City departments will be prepared to reduce expenditures should revenues not meet projected levels.

BUDGETARY POLICIES

The budget process provides the primary mechanism by which key decisions are made regarding the levels and types of services to be provided within estimated available resources. Budget policy guides this process and directs the City's financial health and stability.

At a minimum, the City shall adopt annual balanced budgets for the general fund, each special revenue fund, and each debt service fund in accordance with the Official Code of Georgia, O.C.G.A. 36-81-3. Georgia law also requires a project-length balanced budget for each capital projects fund.

The annual proposed budgeted should be submitted to the governing authority while being held at City Hall for public review/inspection in accordance with O.C.G.A. 36-81-3. A public hearing will be conducted after proper advertisement prior to the City Council adopting and approving the annual budget document (O.C.G.A. 36-81-5 and 36-81-6).

BUDGET OBJECTIVE BY TYPE OF FUND

The following budget objectives are established for the different funds the City uses:

General Fund

The annual budget for the General Fund shall provide for the general government operations of the City and maintain working capital necessary for financial planning and managing the resources of the City.

Special Revenue Fund(s)

The City adopts annual budget for each special revenue fund that demonstrates any legally

restricted revenue sources are used consistent with the applicable laws and/or regulations (i.e. Hotel/Motel Tax Fund).

Capital Project Fund(s)

The City adopts project budgets for each of its capital project funds. These adopted appropriations do not lapse at the end of a fiscal year; rather they remain in effect until project completion or re-appropriation by City Council.

Debt Service Fund(s)

The City adopts annual budgets for any debt service fund. Any remaining fund balances from prior years plus current year's projected revenues shall be sufficient to meet all annual debt service requirements.

Proprietary Funds(s)

Although generally accepted accounting principals (GAAP) and Georgia statutes do not require the City to adopt budgets for enterprise funds, the City does adopt budget a for enterprise funds in order to monitor revenues and control expenses. The City uses a business approach when budgeting enterprise funds. Enterprise funds shall be self-supporting whenever possible and subsidized losses will be minimized when break-even is not possible.

Additionally, the City classifies funds as either operating funds or non-operating funds. Operating funds are those funds that include appropriations for the payment of salary and benefits and whose maintenance and operating appropriations are necessary to continue the daily operations of the City. The General Fund will always be an operating fund. Non-operating funds are those funds that do not include appropriations for the payment of

salary and benefits and whose maintenance and operating appropriations are not critical to the daily operations of the City.

BASIS OF BUDGETING

Neither GAAP nor Georgia statutes address a required basis of budgeting; however, the City shall adopt budgets in conformity with GAAP for all budgeted funds. All governmental funds shall use the modified accrual basis of accounting. Proprietary funds shall use the accrual basis of accounting with the exception that debt principal payments and capital outlay are budgeted and depreciation is not for budgeting cash flow purposes.

BALANCED BUDGET

A balanced budget is defined as one in which total anticipated revenues plus that portion of fund balance in excess of authorized reserves that is designated as a budget-funding source shall equal total estimated expenditures for each fund.

The City shall avoid budgetary procedures that balance current expenditures through the obligation of future resources. The City shall avoid short-term borrowing to meet operating budget requirements, except as authorized by the Mayor and Council.

Revenues include those which are due for the current year. Expenditures appropriated by the annual budget include items for which disbursements are made or incurred during the fiscal year through the payables process.

All operating budget appropriations shall lapse at the end of the fiscal year. Purchases encumbered in the current year, but not received until the following year, must be

charged against a department's subsequent year appropriation.

BUDGET ADOPTION AND CONTROL

All budgets shall be adopted at the legal level of budgetary control, which is the department level within each individual fund. The City budget is adopted annually by resolution of the Mayor and Council before the beginning of the new fiscal year. In accordance with O.C.G.A. 36-80-21, as soon as the City has adopted a final budget for an upcoming fiscal year, a copy of the budget shall be electronically transmitted in a PDF file to the Vinson Institute and posted on the website accessible to the public. The PDF should be transmitted no later than 30 calendar days following the adoption of the budget resolution.

The budget shall be developed based upon "line item" expenditures within each department. This type of budget focuses on categories of expenditures such as personal services, purchased services, supplies, capital outlay, etc. within each department. At a minimum, each department's appropriation in each fund shall be detailed within the budget document (O.C.G.A. 36-81-3 and 36-81-5). Departments are based on function and activity classifications in the Georgia Department of Community Affairs chart of accounts.

A system of budgetary controls shall be maintained to assure adherence to the budget. Timely quarterly reports shall be prepared comparing actual revenues and expenditures/expenses with budgeted amounts to be distributed to the Mayor and Council.

AUTHORIZATION OF BUDGET ADJUSTMENTS AND AMENDMENTS

The budget is a dynamic rather than static plan, which requires adjustments and formal budget amendments as circumstances change. The Mayor and City Council must approve all amendments in total departmental appropriations by resolution.

The budget officer can make reallocation of budgeted amounts within expenditures/expenses of a department or revenues of a department. The City Administrator shall be the constituted budget officer for the City. Adjustments from appropriations that have been restricted, committed, or assigned for a designated purpose shall not be transferred until a formal de-obligation occurs.

Budget amendments or reallocations are recorded in the general ledger upon approval by the Mayor and Council or City Administrator.

MAINTENANCE AND REPLACEMENT OF CAPITAL EQUIPMENT

The budget for capital expense shall be incorporated with the current year operating budgets for each fund, and shall be funded by current operating revenue to the extent possible. An itemized listing of capital expense, equipment and projects shall be included in the budget document.

BUDGET STABILIZATION & FUND BALANCE POLICY

The City shall strive to establish a fund balance reserve in all operating funds for working capital. The purpose of working capital is to cover the cost of expenditures caused by unforeseen emergencies, cover shortfalls

caused by revenue declines, and to eliminate any short-term borrowing for cash flow purposes. This reserve shall accumulate and then be maintained at an amount that represents no less than three (3) months of operating and debt expenditures (approximately 25% of budgeted expenditures.) Non-operating funds do not need a reserve for working capital.

If necessary, the City may use unrestricted fund balance as a funding source for that fund's budget in any given year. The amount of unrestricted fund balance shall be estimated conservatively, taking into consideration future year needs. The minimum requirement for the reserve for working capital, equal to three (3) months of operating and debt expenditures, must first be met before utilizing the excess fund balance as a funding source for the budget. The utilization of fund balance shall be deemed a use of one-time revenues for budgeting purposes.

CONTINGENCY LINE-ITEM

The City shall establish an appropriated contingency of one percent (1%) of the total annual expenditure appropriation in all operating funds in order to accommodate unexpected operational changes, legislative impacts, or other economic events affecting the City's operations which could not have been reasonably anticipated at the time the budget was prepared. Non-operating funds shall not require a contingency reserve appropriation.

This contingency reserve appropriation will be a separate line-item within the budget. This amount shall be subject to annual appropriation. The approval of the Mayor and Council is required before this appropriation can be expended. If approved, the Finance

Director will transfer the appropriation from the contingency line-item to the applicable line item(s) within the applicable department's budget.

CONTRIBUTIONS

Unless authorized by City Council, outside contributions to programs operated by City departments shall be subject to the City's accounting and budgetary policies. The City welcomes both unrestricted and restricted contributions compatible with the City's programs and objectives. Any material contribution shall be appropriated by City Council prior to expenditure. Material contributions shall be defined as one-time contributions exceeding one percent (1%) of the department's annual maintenance and operating expenditure appropriation or \$25,000, whichever is less.

ONE-TIME REVENUE SOURCES

Non-recurring revenues shall be utilized within the appropriate fund for items relating to non-recurring expenses. The purpose of limiting these funding sources is to eliminate the fluctuations in funding operations with non-sustainable resources. One-time revenues shall be distinguished during the budget process so that a match can be made with non-recurring expenditures.

Adopted December 11, 2012
