Subject: leak detection

Previously in October the council voted to spend \$14,000 on leak detection. Matchpoint spent a week here and Holloway trenching spent time doing some leak detection as well. This totaled \$10,910. Leaks were found that saved us approximately \$5459 a month. Some of these leaks had been a problem for at least 6 months, so finding and fixing them solved a \$30,000 problem. I have \$3090 left and I am requesting an additional \$3910 to contract Matchpoint for another week. This will be paid from the water loss control budget which has an estimated remaining budget of \$36,000.
